Course Information

Operating Environments

Vanni Galli, lecturer and researcher SUPSI

September 2025

Important Links

- **Moodle:** <https://www.icorsi.ch/course/view.php?id=10488>
 - Enrollment key: **2025**
- **Asynchronous activities:** <https://operating-environments-labs.vercel.app>

Contact and Communication

- Teacher: Vanni Galli
- Email: vanni.galli@supsi.ch
- Please prefer communication via Email or Microsoft Teams.

Asynchronous Activities

- You will complete **one activity per week**.
- Activities are published on the [Asynchronous Activities website](#).
- Each activity should take (about) 1 hour to complete.
- The goal is to practice regularly and reinforce what we do in class.
- **Topics covered may appear in the written exams!**

Written Exams

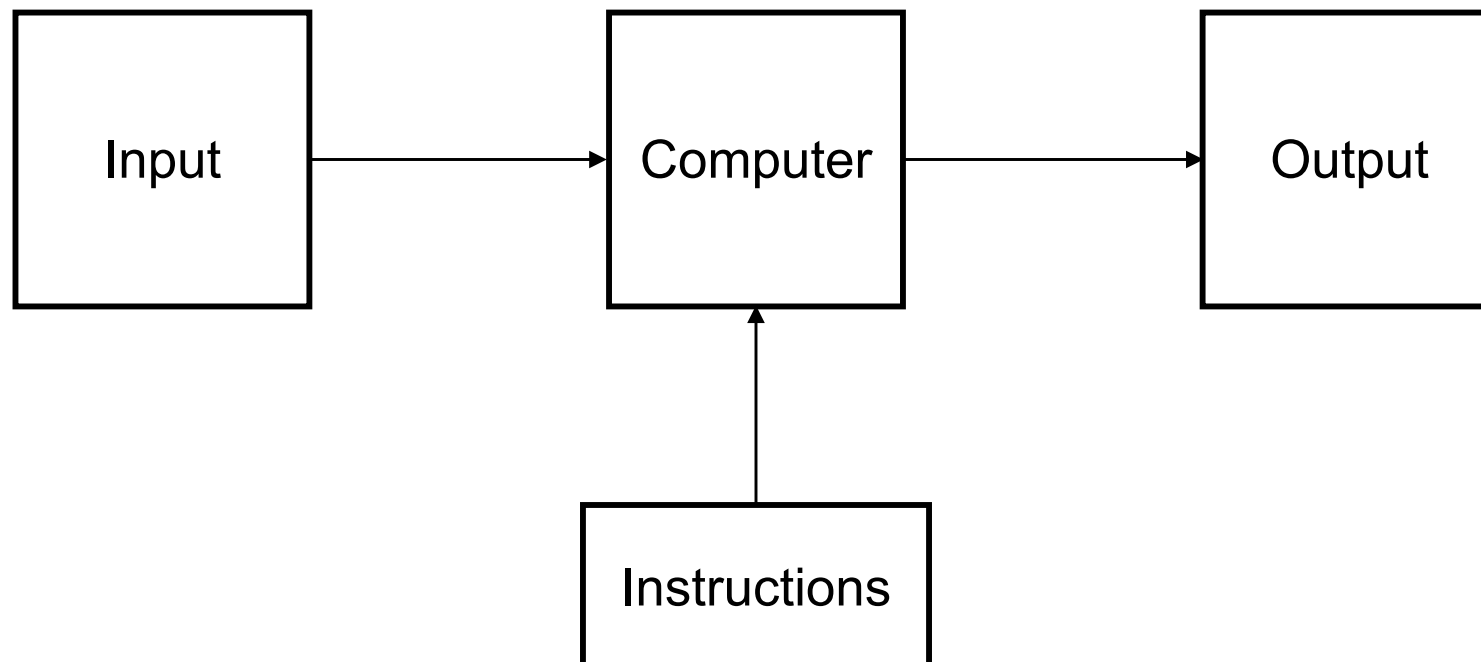

- First written exam
 - Class D1B: 28 October 2025.
 - Class D1A: 29 October 2025.
 - **Please take note of the dates and plan accordingly!**
- Second written exam
 - Takes place during the January exam session.

Course objective

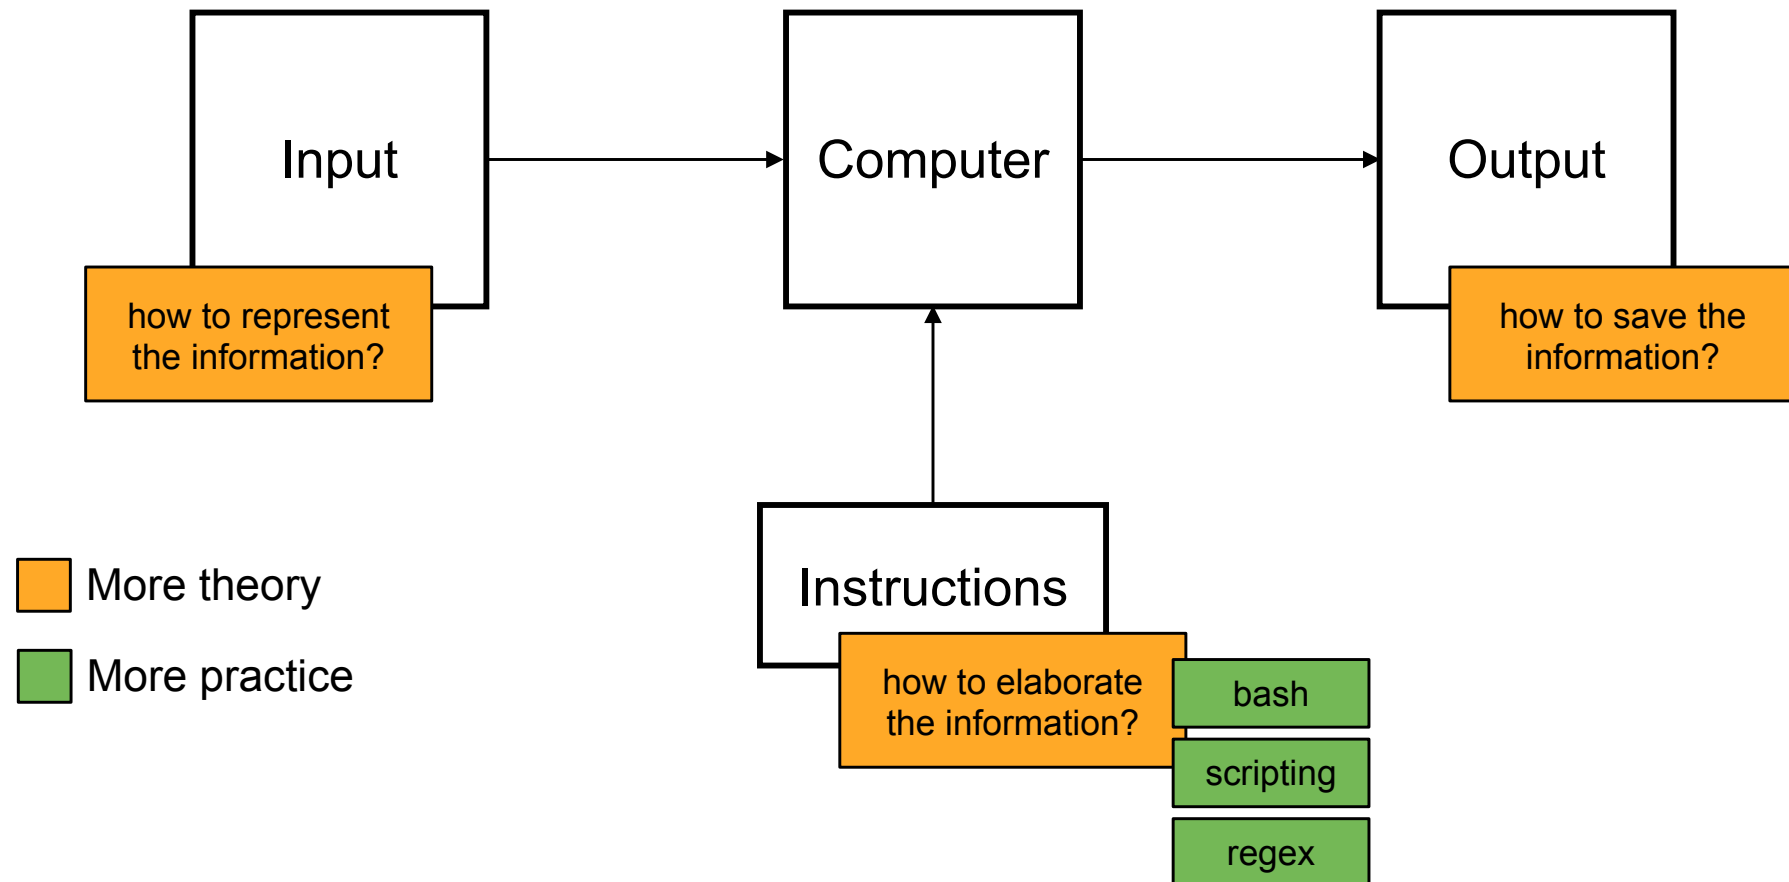

- Learn to use the computer as a **data processing tool**.

The computer as a data processing tool
